Mr. David P. Miller
Superintendent, Water Div. No. 4
Rock Springs, Wyoming

Dear Mr. Miller:

Enclosed please find two copies of a letter received in this office on November 29. This letter is dated November 20, and appears in the form of a petition, signed by the Lower Burnt fork Water User's Association representatives, Mr. H. C. Stewart, Chairman.

This letter or petition concerns the alleged violation of the statutory administration of water in this state, and also against the State of Utah. We would appreciate your ascertaining the facts in this case, so that this matter may be properly considered by this office, and if deemed advisable that we will be able to cooperate with the Water authorities of Utah in preventing any recurrence.

From previous trouble that you have had with Mr. Jensen regarding the administration of water, you are probably better informed than anyone in this office could be regarding the basis for this complaint. We would appreciate an early reply from you in this matter.

Yours very truly,

JOHN D. QUINN
State Engineer
